Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AFS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

FINDS:

Registry ID: 110064761217

Click Here:

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Registry ID: 110039618919

Click Here:

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality. Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Monitoring Description: Electronic line leak detector

Piping:
Tank ID: 16
Piping Category: Primary Construction
Piping Description: Steel/galvanized metal

Tank ID: 16
Piping Category: Miscellaneous Attributes
Piping Description: Pressurized piping system

Tank ID: 16
Piping Category: Miscellaneous Attributes
Piping Description: Abv, no soil contact

Tank Id: 17
Status: In service
Status Date: 07/01/2008
Install Date: 7/1/2008
Substance: Diesel-emergen generator
Content Description: Emerg Generator Diesel
Gallons: 8000
Tank Location: ABOVEGROUND

Construction:
Tank Id: 17
Construction Category: Overfill/Spill
Construction Description: Ball check valve

Tank Id: 17
Construction Category: Overfill/Spill
Construction Description: Spill containment bucket

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

County: HILLSBOROUGH
Object ID: 6278
USACE Division: SAD
USACE District: Jacksonville District (SAJ)
Status: Properties with all projects at site closeout
Current Owner: PRIV: PRIVATE TAMBA PORT AUTHORITY, GEO. B. HOWELL, MARITIME CENTER ,
PRIVATE TAMBA PORT AUTHORITY, GEO. B. HOWELL, MARITIME CENTER
EMS Map Link: <https://fudsportal.usace.army.mil/ems/ems/inventory/map/map?id=55657>
Eligibility: Eligible
Has Projects: Yes
NPL Status: Not on the NPL
Property History: Approximately 58.87 acres (53.0 acres in fee, and 5.87 acres in lease) were acquired between 1941 and 1942 by the Department of the Navy, for a naval industrial reserve shipyard. Improvements to the site consisted of constructing various utility buildings, warehouses, a compressed air distribution system, an acetylene distribution system, equipment houses, cranes, underground storage tanks, and several ship building slipways. The site was used for the construction and repair of Navy ships. In 1958, the Navy determined that 1.60 acres in fee and one building were surplus to its needs. On 29 December 1958, the General Services Administration (GSA) conveyed, by quitclaim deed, the 1.60 acres and building to a private company. In 1961, the Navy determined that the remaining 57.27 acres and improvements were surplus. On 14 November 1963, GSA conveyed the 51.40 acres in fee and most of the improvements to Tampa Port Authority. On 11 November 1963 GSA disposed of 1.26 acres in leasehold by assigning the lease to the Tampa Port Authority. On 6 March 1964, the Navy returned the remaining 4.61 acres in leasehold to the Tampa Electric Company. The Tampa Port Authority has utilized the site and the facilities since then.

Fiscal Year: 2013
Federal Facility ID: FL9799F4716
RAB: Not reported
NPL Status: Not Listed
Description: Between 1941 and 1942, the Department of the Navy acquired 58.87 acres located on Hookers Point, on the east side of Ybor Channel in the City of Tampa for use by the Navy as a Naval Industrial Reserve Shipyard. In 1961 the Navy determined the site as surplus and in 1963 conveyed 58.38 acres of the property to the Tampa Ports authority and in 1964 returned the remaining 4.61 acres to the Tampa Electric Company. The Tampa Port Authority/George B. Howell Maritime Center has used the site and the facilities since that time. The Tampa Port Authority operates the property under investigation.

History: The land was acquired between 1941 and 1942 by the Navy for a naval industrial shipyard. The Navy constructed a fully operational shipyard, to include: warehouses, various utility buildings, compressed air distribution system, an acetylene distribution system, equipment houses, cranes, underground storage tanks and other miscellaneous improvements necessary to complete the sites mission.

TAMPA NAVAL INDUST RES SHIPYARD (Continued)

1007212639

The site remained active until 1961 when the Navy decided its mission had been completed. The site was recommended as a Containerized/Hazardous, Toxic and Radioactive Waste (CON/HTRW) project site in August 1993. In 1997 an underground storage tank and associated piping were removed from the site and contaminated soil was removed and disposed of. A confirmatory groundwater sampling collected from the former tank pit following removal indicated the presence of lead in groundwater above the regulatory limit. A limited sampling at this site and a letter report confirming or denying the presence of contamination is the next objective.

Hazardous Waste Summary:

Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: D002
Waste Description: CORROSIVE WASTE

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Content Description: Vehicular Diesel
Gallons: 1000
Tank Location: ABOVEGROUND

Tank Id: 8
Status: In service
Status Date: Not reported
Install Date: Not reported
Substance: Vehicular diesel
Content Description: Vehicular Diesel
Gallons: 300
Tank Location: ABOVEGROUND

Tank Id: 9
Status: Removed
Status Date: 08/01/1995
Install Date: Not reported
Substance: Waste oil
Content Description: Waste Oil
Gallons: 1000
Tank Location: ABOVEGROUND

Tank Id: 16
Status: In service
Status Date: 01/01/2001
Install Date: 1/1/2001
Substance: Vehicular diesel
Content Description: Vehicular Diesel
Gallons: 8000
Tank Location: ABOVEGROUND

Construction:
Tank Id: 16
Construction Category: Primary Construction
Construction Description: Steel

Tank Id: 16
Construction Category: Secondary Containment
Construction Description: AST containment

Monitoring:
Tank ID: 16
Monitoring Description: Monitor dbl wall pipe space

Tank ID: 16
Monitoring Description: Visual inspection of ASTs

Piping:
Tank ID: 16
Piping Category: Miscellaneous Attributes
Piping Description: Abv, no soil contact

Tank Id: 3

National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIFS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

OSHA ESTABLISHMENT

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Name: VACANT NEBRASKA BUILDING
Address: 1526 NEBRASKA AVE
City,State,Zip: TAMPA, FL 33602
Recipient Name: City of Tampa
Grant Type: Assessment
Property Number: 192648-0000
Parcel size: .24
Latitude: 27.958127
Longitude: -82.451514
HCM Label: Address Matching-House Number
Map Scale: -
Point of Reference: Entrance Point of a Facility or Station
Highlights: Located on highly traveled Nebraska Avenue only 600 feet from the newly developed Encore Tampa's Downtown Tempo District and across the street from the beautiful Robert W. Saunders Public Library Former Use: Residential from approximately 1910 through the 1950s and then commercial (dentist, beauty salon, tailor) and mixed use apartments until the early 2000s. The City of Tampa obtained the site in 1990 from Daniel Devoe in 1990. Tampa Hillsborough Action Plan Inc. (THAP) and Widespread Inc. were additional owners. A potential heating oil UST fill port was observed during the August 2016 Phase I ESA site visit by Terracon.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.
